

KENTUCKY TRAILER

A Servant Leader Company

Trailer Feature Improvements

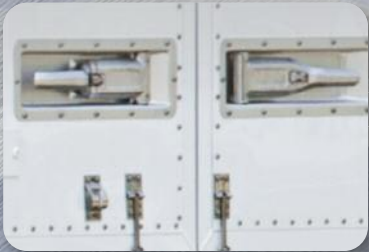

Dual Function Stop / Turn Rear Frame Header Lights

Mini marker lights on top rear header act as marker lights and high-mount, safety stop/turn lights

Improved Anodized Side Door Pans

Better surface treatment provides finish resilience and increased product life

Corner Castings with built in Corner Protectors

Protects the bevel light and reduces potential structural damage from limbs and wires

LED Strip Dome Lights

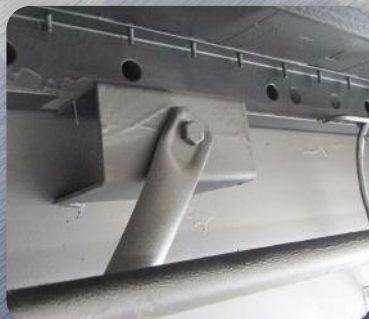

Complete trailer illumination from front to rear with 50,000 hour long life LED's

Retrofitable to existing Kentucky Trailer models

Bolt on Landing Gear

Improved design resulting in easier replacement if damaged

Improved Nose Box Switch & Light

Reduced amperage draw with long-life LED

Trailer Feature Improvements

**The professional's
choice for Custom Trailers**

Hard Anodized Side Door Hinges

*Provides longer hinge life,
improved door closure and
mitigates seizing*

Top Rail With Internal Raceway

*Internal raceway protects
wires from damage and LED
lights are positioned closer to
upper flange allowing for
greater visibility and minimizes
damage risk*

New Mini-LED Lights

*Double sealed LED lights
lower voltage draw and have a
longer life cycle*

Enhanced Undercoating Package

*Provides greater protection
against road treatment
chemicals while reducing
Volatile Organic Compounds
(VOC's)*

**A Kentucky Trailer Green
Initiative**

Non-Ethyl Benzene Floor Coat

*Improved polyurethane floor
treatment combines aesthetic
appeal and durability; reduces
hazardous air pollutants
(HAPS)*
